## PROJECTS

### Library management system

- Created a web-based library management system using HTML, CSS, and JavaScript, designed to streamline library operations and enhance user experience.
- Key features : Developed an intuitive interface for adding, editing, and categorizing books within the library.
- Implemented secure user registration and login functionality, ensuring data privacy and user access control.
- Skills utilized : Proficiently used HTML, CSS, and JavaScript to create a responsive and user-friendly web application.  
Challenges Overcome : Ensured cross-browser compatibility and responsive design for a seamless user experience across devices.

### Portfolio website

- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to present my professional skills, projects, and achievements.
- Key features : Implemented a responsive design to ensure the website adapts seamlessly to various screen sizes and devices.
- Skills utilized : Demonstrated proficiency in HTML, CSS, and JavaScript to create a visually appealing and interactive website.
- Challenges Overcome: Addressed design and layout challenges to achieve a professional and engaging appearance
